

TEULADA-MORAIRA BEACHES WILL BE READY ON MAY 28

The company Teumo Serveis, contracted by the Town Hall, is getting all Teulada-Moraira beaches ready for summer and the many visitors we expect. Refurb jobs, cleaning and improvements on Platgetes, El Portet, l'Andragó and l'Ampolla are underway. On the same date the lifeguards will be on duty again.

CAMPAIGN AGAINST THE TIGER - MOSQUITOS

The Town Hall of Teulada issues an appeal in order to prevent the proliferation of the tiger mosquito and to help minimize the problems caused by this insect.

This Town Hall recommends that citizens take the following actions in their own private property:

- Empty exterior containers which can accumulate water: toys, ashtrays, vases, buckets, cans, plates, underneath plant pots, pet's bowls, paddling pools, etc. twice a week, put them face down or remove them from the elements.

- Avoid water accumulation in drainage areas or gutters.

- Avoid holes and depressions in the ground where water can accumulate, and cover holes in tree trunks by filling them with sand.

- Protect wells and water tanks with mosquito mesh.

mesh.

- Carry out adequate maintenance of water in swimming pools through its disinfection to avoid water going bad and, if possible, keep them covered while not in use, avoiding water accumulations on canvas and plastic covers.

Should you discover a problem in detached properties or estates, you are advised to carry out treatment using available pesticide products, or to contact a company specializing in pest control to carry out the permanent treatment in the structures which are susceptible to the proliferation of mosquitoes.

For further information, please see the suggestions on the Brochure General de Salud Pública de la Comunidad de Sanidad Universari y Salud Pública's website, within the www.gp.san.gva.es portal.
