## RECOVERING 50m OF THE EL PORTET BEACH

The El Portet beach suffers erosion and is getting narrower. A year ago the ministry of environment in collaboration with the main department for sustainability of coast and sea allocated a mandate for the project Playa del Portet.

The study has a duration of 24 months and the goal is to elaborate a project reflecting the actions to be taken to stop the erosion on the El Portet beach and to regain and stabilize part of its width using material with similar characteristics as nature would. The project includes the recovery of 50m of sandy beach.
