

## NEWSLETTER

Back in October the council of Teulada Moraira gave citizens the chance to give their input regarding municipal investments. 1219 people voted for different projects and the most voted, with 233 votes, was the acquisition of the "Pinaret de la Costa", 34.665m2 of land which will be developed for public use.

## 8.000 TONS OF SAND FOR THE EI PORTET BEACH

The El Portet beach had severely suffered from the recent storms and a lot of sand got carried away by the waves. Recovery of the sand by nature is impossible. Starting Wednesday March 8, 2017 the governmental department of coastal management will start the necessary reconstruction works on the El Portet beach by distributing 8.000 tons of sand, approximately the amount lost in the storm. Estimated time to accomplish the job is ten days and there will be limited access to the beach during weekdays. The ministry will supervise the works and assures that they will do whatever is necessary to conserve the ecosystem.
