BEGIN INSTALLATION OF FIBER OPTIC CABLES IN TEULADA MORAIRA

The council has given authorisation for the installation of fiber optic cables to two companies. This is an indication that work will start soon. The three stages of installation are planned as follows: village centre Teulada, village centre Moraira, outside areas.

TEULADA MORAIRA MORE SECURE - FIRST LOT OF SOLAR STREET LAMPS INSTALLED

Teulada Moraira has concluded the first phase of a project which allows better surveillance of public spaces. 20 solar street lamps equipped with photovoltaics have recently been installed. They are more efficient, autonomous and there is no additional cost for the municipality for electricity. The illumination has been installed primarily in waste container areas, at zebra crossings and in other strategic areas with the goal to improve security and to avoid that some people take advantage of darkness to deposit waste and other trash where it is prohibited.
